

REMARKS

Examination of the present continuation application filed under 37 C.F.R. 1.53(b) is respectfully requested.

The present application is a continuation of U.S. Application Serial No. 10/074,242 (the "parent application"), filed on February 14, 2002. In the present preliminary amendment, Applicant has amended the specification to cross-reference both the parent application and the Japanese priority application.

The Examiner should note that the present application includes new claims 35-42. These claims are added to claim that increasing/reducing control of rotational speed of the compressor is free from the construction of the dynamotor.

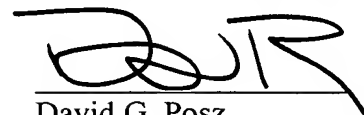

The Examiner should also note that the following parts in the original specification relate to new claims 35-42: Page 1, lines 6-11; Page 4, lines 5-15; Page 5, lines 4-14; Page 5, line 26 to page 6, line 4; Page 6, lines 5-12; Page 14, line 36 to page 15, line 18; Page 16, lines 23-29; Page 17, lines 15-24; Page 18, lines 5-9; Page 18, lines 10-17; Page 18, lines 22-35; Page 18, line 36 to page 19, line 17; and Page 23, lines 8-13.

In view of the above amendments and remarks, the present application is believed to be in condition for allowance. A prompt notice to that effect is respectfully requested.

Although no additional fees are believed to be due, permission is hereby given to charge any unforeseen fees to deposit account 50-1147.
